

ROCKETH

White Paper V1 - December 2021

About Us

ROCKETH, \$ROCKETH, is a community-driven rewards token on Binance Smart Chain. To help protect from whales dumping or from holding high percentages of the supply, we feature a 1% max sell and a 2.5% max hold.

\$ROCKETH is a deflationary community-driven token on Binance Smart Chain that offers big rewards. \$ROCKETH holders can earn ETH automatically every 1 hour just for holding \$ROCKETH!

The token is led by an experienced and dedicated team that has ambitious plans for the future of the token and its ecosystem. Their goal is to create a digital ecosystem for meme coins. Their plans include a multi-blockchain yield farm, decentralized exchange, IDO platform, and NFT marketplace.
